synthetic knowledge from thought and the fabric of information

. . . .

Abstract

.

- This Talk Is about DATA .

- DATA below and above the Microscope.

- The Stuff all DATA is made off (**Concept's**).

- Where is the Problem of DATA usage Today;

- Can we Hack around the problem ? HOW

- **Semantic Without restriction or reductions.**

- Across Any or All Information of the World. **without Domain expert's**, or any other primitive Aide you learned in school.
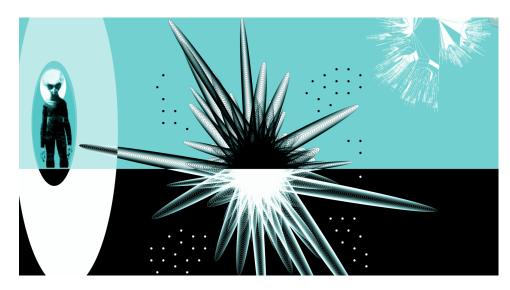

Figure 1: (in the future and today at the **DatenSpuren** 2013, we will make **synthetic Knowledge from Thought**)

Hacking-arsenal (perl , AI-Micro-structures, Terminal)
